

NuOrder: FAQ - discounts

In the NuOrder system discounts are applied as net discounts, meaning that when a discount is applied on the NuOrder site, NuOrder automatically applies it as a net discount to the individual order lines and not as a simple grand total discount off the order itself.

Meaning that if you have a style that sells for \$25 and offer a 10% discount to the order, the style will import into the AIMS360 system at a \$22.50 price instead of importing at the full \$25 price. Because of this, the order will not have any discount information visually recognizable.

1. Discount applied to entire Order

If you use the discount option on the main order page, it will discount the entire order accordingly.

NOTE: It is suggested that you enter a note on the order that a 10% discount has been given or some such in the case of discounts on NuOrder.

The screenshot shows the 'Order Details' page in the NuOrder system. At the top, there are three tabs: 'ORDER DETAILS' (selected), 'ITEMS & DELIVERIES', and 'TERMS & CONDITIONS'. Below the tabs, the page title 'Order Details' is displayed. To the right of the title, there are input fields for 'Order #' (100672) and 'Customer PO'. A note below the title states: 'If you are viewing the gallery as a specific company, selecting a different company in the Working Order may impact product availability or pricing.' Below this, there are several dropdown menus for 'Company *' (ABIGAIL'S PLACE), 'Buyer *' (Abigail), 'Shipping Address' (ABIGAIL MORGAN), 'Billing Address' (ABIGAIL MORGAN), and 'Sales Rep *' (Scott Allen). There is also an 'ADD NEW CONTACT' button. Below the dropdowns, there are input fields for 'CC Emails' and 'Order Type' (Order Type). To the right of these fields, there is a summary box with 'Discount %' set to 10 and 'Surcharge %' set to 0. Below this, there is a 'Notes' field containing the text '10% discount applied'. 2. Discount applied at Line Level

If ordering more than one style color in NuOrder and you only want to apply the discount on a specific order, you can apply the discount at the line level in NuOrder.

It is still suggested that you add notes about the discount being applied. You can add the note on the line level itself, but it may be missed, so it is recommended you add a note at the order details level.
